

# ClickPay Checkout

Paypal for Real Estate. Embed ClickPay Checkout in native websites, mobile apps, and leasing applications to collect and apply payments.

## Custom-Branded Checkout

ClickPay Checkout brings the power of ClickPay's platform to Property Managers' own websites. Integrate ClickPay Checkout to fulfill needs like processing payments by charge type, allowing first month's rent to fund the operating account & security deposit to route into an FBO account. Custom brand the experience & tailor the data captured to automate and process a variety of payment activity.

### Integrated Payments for:

- Application fees
- Security deposits
- First month's rent + more

► ClickPay Checkout is a simple way to power payments within existing web & mobile experience experiences.

## Example Process Flow ClickPay Checkout to Power Leasing

1

### Select Applicants

Office staff provide chosen applicant the leasing web link with ClickPay Checkout to apply for vacant unit.

2

### Complete Custom Form

Applicant navigates to branded site and completes the custom leasing form.

3

### Submit Payments

Property Managers determine the payment amounts and charge types. Applicant pays fees from form.

4

### Receive Payments & Data

Property Managers receive deposits by charge type and corresponding applicant info for quickly filling vacancies.
