# Click*Pay* Payments

Checks, money orders & walk-in payments seamlessly join electronic payments in a single platform to maximize productivity.

One Platform.
All of Your Payments.

Click*Pay* is the only real estate platform that consolidates electronic and paper payments, creating meaningful operational efficiencies. Innovative payment products deliver the industry's highest electronic adoption. Click*Pay* payments simplify and automate accounts receivable, enabling profitable growth for property management companies.

> *The management Dashboard displays payments both holistically and individually for business insights and daily AR management.*

The Most Innovative Payment Platform

Business Rule Automation

Easily set payment acceptance rules & business configurations for your entire portfolio, a building or even a unit, decreasing manual intervention.

Collections Dashboard

Complete receivables solution, including, e-checks, credit cards, paper checks & online bank checks, automates processes & streamlines collections. Single source for all payments with a tiered dashboard allows for a holistic portfolio view & the ability to drill down to the property, transaction, & tenant level.

Simplified Bank Reconciliation

Only Click*Pay* moves data to accounting systems & payments to banks at the same time, eliminating the pain of reconciliation. API integrations across the payment ecosystem seamlessly syncs information in near real time for the most modern method to manage payments.
