Why ClickPay?

ClickPay is the only complete accounts receivable platform designed exclusively for the real estate industry. Through a breadth of client-centric solutions, ClickPay helps Property Managers in the three most challenging receivables areas: **collections, cash flow, & reconciliation.**

Streamlined Collections

- Complete receivables solution, including, e-checks, credit cards, paper checks & online bank checks, automates processes & streamlines collections

- Single source for all payments with a tiered dashboard allows for a holistic portfolio view & the ability to drill down to the property, transaction, & tenant level

Accelerated Cash Flow

- Whether a paper or electronic form of payment, ClickPay's technology is proven to speed time to deposit, accelerate & improve cash flow

- ClickPay's proprietary capability enables payments originated from residents' online banking portal, to be electronically swept, accelerating funds up to a week

Simplified Reconciliation

- Only ClickPay moves data to accounting systems & payments to banks at the same time, eliminating the pain of reconciliation

- API integrations across the payment ecosystem seamlessly syncs information in near real time for the most modern method to manage payments
